ANTIQUE RADIO CLASSIFIED

EDITOR'S COMMENTS

Once again the frenzy of radio activity means a special A.R.C. issue packed with event and auction reports. In particular, our focus is on the "big ones" — Radiofest '97 in Elgin, Illinois, and the Antique Wireless Association's Conference in Rochester, New York. Fortunately, your editor was able to attend both of these events and bring back firsthand information. But, this month, as with all meet and auction reports, we have also relied upon input from subscribers. Ray Chase, Ludwell Sibley, Art Bilski, Dan Schoo, and many others have supplied additional reports, photos and information. Needless to say, we are always extremely grateful to all contributors for their help.

Many readers may not realize how much time and effort goes into these reports. We first seek out multiple sources of the information so as to create as comprehensive and accurate a listing as possible. Our goal is not only to report the facts about what was there, but also to convey the flavor of the meet.

In choosing photos, we concentrate as much as possible on unusual items or displays of general interest, rather than on officials and prizewinners, who seem more appropriately shown in club publications. We do, however, try to present a human side. Through our photos, readers can often put a face to a telephone voice or to a person with whom they have corresponded.

Our hope is to present a report interesting to everyone — those who were there, those who were not able to attend, and even those who may not think they have any interest in meets. Perhaps our reports may even be enough to get another reader to a major meet next year or, at least, to more local events.

Our extensive meet coverage this month has limited our space for other articles, but we have made room for a "Staff Profile" on Lisa Friedrichs, our office manager. Lisa is leaving this month to become a full-time mother. If you have called A.R.C., chances are you have spoken with Lisa. She will be greatly missed.

Although this profile is again on a departing staff member, we hope to cover the rest of our staff while they are still here. Staff change is a rare event at A.R.C. where the average tenure is 7 years.

We also include Erwin Macho's report on the Dorotheum Auction in Vienna, Austria. Since U.S. sets are not very common in Europe, they sometimes bring premium prices, such as the Westinghouse RC which brought $1,000 — four times its typical U.S. price.

Of interest in *Photo Review* is Wally Worth's ICA Universal "Mascot," a 1-tube receiver using plug-in coils. *Radio Miscellanea* will return next month.

Statement of Ownership. The required U.S. Postal Service statement appears below and shows that paid circulation is 8,118 for the September 1997 issue. Thanks to all of you for your support of A.R.C. throughout the past thirteen years.

Coming Radio Events. Although the holiday season is approaching, over 40 radio events are scheduled in November. Of note are the Southern California Antique Radio Society 2-day meet in Van Nuys, California, and a 2-day, 3-club event in Tempe, Arizona. Club activities are a great way to learn more about old radios and to meet with many of your radio collecting friends.

Happy Collecting!

John V. Terrey

ON THE COVER

Pictured on our cover is the actual miniature wooden cameraman used on the 1950s "Kraft Television Theater." This model, about 5" tall, owned by Norman R. Smith, was entered in the old equipment contest at the AWA Conference in Rochester, New York — a great connection to the conference theme.

PURPOSE. **Antique Radio Classified** is published for people involved in the radio collecting hobby. Its purpose is to stimulate growth of the hobby through the buying, selling and trading of radios and related items, and to provide a monthly forum for the interchange of ideas and information.

CONTACTING ANTIQUE RADIO CLASSIFIED. All correspondence should be sent to:

A.R.C., P.O. Box 2, Carlisle, MA 01741.
Only UPS, Federal, etc. items to street address: One River Road.
Telephone: (508) 371-0512; Fax: (508) 371-7129
E-mail: ARC@antiqueradio.com – Web: www.antiqueradio.com
Please, no classified ads by telephone; thanks.

Your ads, renewals, letters, etc. can be handled faster and more efficiently if your name, address and SUB# are written on each.

Unfortunately, A.R.C. is not staffed to answer letters with questions about antique radios or requests for advice. However, A.R.C. does solicit letters of interest to its readers and publishes them as space permits. A.R.C. assumes that permission is given to edit and to publish all correspondence and articles received unless otherwise indicated.

ay cancel your subscription at any

CEDURES/PAYMENT. Subscrip-
ied ads, display ads, etc. are welcome
es are the same as for ads received by mail. Please calculate the amount due. Payment by VISA or MasterCard is preferred if your order is over $10. If under $10, or if you prefer to send a check or money order, state the amount being sent and that the payment is in the mail. Do not send another copy of your ad with your payment; simply indicate that it is a fax or e-mail payment. If you want confirmation of our receipt of your fax, call immediately after sending your fax.

CHANGE OF ADDRESS. Please notify us 4 weeks in advance of a change of address. Send both your new and old addresses, and include your SUB# and effective date of your new address. Temporary address changes can be made also.

SUBMISSION OF MATERIAL. Antique Radio Classified welcomes and solicits information that pertains or relates to radio history or collecting. This may include articles, book reviews, photos, information on upcoming radio events, meetings, antique radio organizations, radio auctions, sources of old radio and restoration supplies, and other related and interesting material. All material submitted should be carefully researched, typed and accompanied by good photos, if appropriate. Computer disks are appreciated. Writing guidelines are available upon request. Unless prior arrangements are made, all submitted materials may be edited, become the property of **Antique Radio Classified** and will not be returned. Publication is subject to approval by A.R.C. and to time and space constraints.

MAILING OF ISSUES. U.S. subscribers can receive A.R.C. by First Class or Periodicals mail (Periodicals is the way most magazines are mailed). The mailing of First Class copies is staggered with faraway copies mailed before local copies. Non-U.S. copies are mailed on the first day. Periodicals copies are mailed on the last day. Mailing dates change each month, but mailing is usually completed by the 27th of the month. First Class copies usually are received by the 5th of the month; copies by Periodicals mail, by the 10th.

ETHICS. No person involved in the production of A.R.C. is to act on any information in the magazine until the first delivery day after local copies are mailed.

DISCLAIMER. The publisher is not responsible for any buying and selling transactions incurred, or for any other use of the contents of this publication.

Antique Radio Classified subscription rates, frequency of publication, content, policies, size and ad details, and rates are subject to change at any time by A.R.C.

DISPLAY AND BUSINESS CARD ADS – DETAILS AND RATES

The deadline is the first of the month for display and business card ad artwork, payment and repeat requests.

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisified, and to comply with a buyer's refund request on unaltered returned items.

Advertising must be prepaid, except as noted below; see "Payment" paragraph above for details. Late ads will be run only if space and time permit. Since artwork is reduced to 63% in the printing process, **originals must be the artwork size listed below.** Do not send in artwork on art board or send negatives. Ads should be typeset or typed neatly with a carbon ribbon, black ink (not pencil) on white. If used, reverse type must be limited to 25% of the ad. If you want us to prepare your ad, include the one-time cost below for A.R.C. to make up the ad.

Photos should be at an 85-line screen; otherwise, add $15.00 per photo for screening. **Do not cut or trim photos or glue photos to artwork; submit separately.**

If you are confused by these requirements and terms, please contact A.R.C. before beginning to prepare your ad. We will be happy to advise you on your ad ideas, estimate how much the ad will cost, recommend an ad size, etc.

We assume that advertisers want all ads which are submitted to run without delay; therefore, we will run the ad and bill for any additional work required for the ad to meet these specifications. A late ad will run beginning with the next month. "Tear sheets" will be sent only for 1/8-page or larger ads and only if requested when the ad is submitted.

First business card per advertiser is at lower rate.

The 3-month rates represent about an 11% discount, the 6-month rates 23%, the 12-month rates 30%. Placement requests: add 15% but call first. Clubs: write for discount policy.

MEET & AUCTION REPORT

Antique Radio Club of Illinois Radiofest XVI

Elgin, Illinois — August 6-9, 1997

REPORTED BY JOHN V. TERREY AND THE ARCI

RCA VICTOR
"Magic BRAIN"
"Magic EYE"
Metal TUBES
RCA

This RCA Victor electric dealer sign was one of the many items in the RCA display at Radiofest XVI.

The Antique Radio Club of Illinois (ARCI) held its Radiofest XVI from August 6 to 9, 1997, at the Holiday Inn Holidome and Convention Center in Elgin, Illinois. The hotel did much to make the event festive by having the desk clerks and restaurant personnel wear radio club T-shirts. And even Mother Nature smiled on all 530 attendees, as the weather was unusually fine throughout almost the entire event.

Although there was some uncertainty about available space in the overflow field adjacent to the hotel parking lot, the flea market had approximately the same number of vendors as last year. Even an increase in the price of space wasn't a deterrent, as your editor counted 185 vendors who had set up on Wednesday and Thursday. In fact, many of them were in full swing by evening on Tuesday, since the official opening had been moved back from Wednesday to Tuesday at 3:00 P.M.

The presentations this year were exceptionally good and well attended. Two of them featured well known authors whose works have been favorites among A.R.C. readers. Ron Ramirez, author of *Philco Radio: 1928-1942* spoke on the history of Philco, while Harold Cones, co-author with John Bryant of *The Zenith Trans-Oceanic: the Royalty of Radios,* spoke on the history of Zenith. The first of the Bryant and Cones' trilogy on Zenith — *Zenith Radio, The Early Years: 1919-1935* — is now available from the authors, A.R.C., and other A.R.C. advertisers.

A warning: *Auction prices are not current values. Our selection of auction items is not necessarily complete. A listing such as this cannot adequately include the condition of cabinets, chassis, transformers, tubes, the operating status of the set, and the inclusion of incorrect, restored or replica components, etc. Auction prices are the result of the excitement of the auction process, the skill of the auctioneer and the specific interests of the participants. Nevertheless, auction prices serve as useful references and as another element in the value determining process. The possibility of error always exists, and if we are notified, corrections will be reported.*

Other excellent presentations were given by Ed Heuther on repairing old radios, and by Doug Houston on his collection featuring RCA radios and early television. Doug has had several articles published in A.R.C. In addition, the wonderful Muchow Museum, where over 3,000 radios are on display, was open on Thursday from 10:00 A.M. to 4:00 P.M., free of charge. Shuttle buses to the museum were again a great convenience.

The other educational aspects of Radiofest were also exceptionally good this year. For example, Danny Gustafson organized the display room around a single theme — RCA — and showed a wide range of items from his own RCA collection.

Many interesting items showed up in the 10 categories of the old equipment contest. Folks welcomed the new policy of awarding cash prizes to contest winners — $25 for first place winners and $100 to the best of show. In addition, all who entered the contest were awarded handsome certificates.

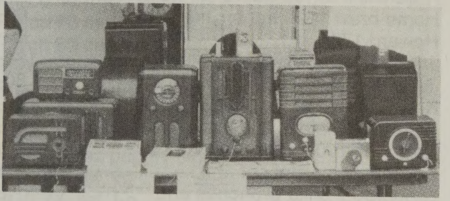
Two 1936 examples of RCA radio art by designer John Vassos in the RCA display. At left is the RCA Model 6T10; at right, is the RCA Model 8T10.

As always the auction was a lively event with sales totalling over $14,000. Proceeds were down from last year's nearly $18,000, although about the same number of lots — 209 — went on the block. This decline may have been due to the presentation of 25 de-accessioned lots from the Museum of Science and Industry in Chicago. Unfortunately, these lots consisted only of parts and items in poor repair, which had a dampening effect on the opening of the proceedings. Estate items excited much more interest.



Radios for sale at Alan Jesperson's table in the Radiofest flea market.

Among the surprises were a National SW3 receiver with coil sets and HB power supply in very good condition, which brought $875 — about double the going price. A big RCA 66X8 Catalin went for $575, while a Sparton 557 blue mirror radio brought $1,300. Two early superhets — a Penn Super and a Baldwin Superhet — brought $600 and $675 respectively. And as has been the trend, 6 of 16 Zenith sets brought over $100 each.

One of the many flea market tables that offered something for everyone.

Overall, the auction was run in an efficient and timely manner by auctioneer Harry Blesy and the club members.

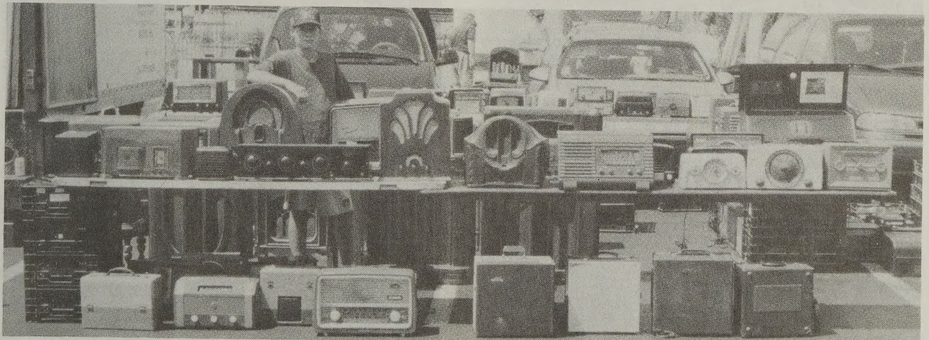
On the lighter side, the Awards Banquet was greatly enjoyed by the 166 attendees. For entertainment, original radio programs were performed live by "Those Were the Days Radio Players — West." Folks were again delighted by the informal appearances of the Bad Mood Swing Band, known in previous years as "The Split Level Ramblers" or "The Pink Toothbrush."

The International Collector Reception hosted by A.R.C. poolside at the Holiday Inn on Wednesday at 5:00 P.M. was a big success. Over 100 attended, and there was much good radio-talk among collectors from both sides of the "pond." In addition to Jonathan Hill, Phil Taylor, and John Hawes from England, U.S. collectors were able to chat with Jacques DuBois and Andre Chompret from France. The three books given as door prizes were a big hit.

Next year's show dates are August 5-8, so mark your calendars.

The following report is as complete as possible. Some items with inadequate descriptions, low prices, or in poor condition have not been included. Prices have been rounded to an even dollar amount.

(Continued on following page)



Watching John Denhartigh's flea market table was his son, Paul. The Denhartighs of Kalamazoo, Mi. offered everything from early battery sets, Repwoods, tombstones and cathedrals to 1960s plastic radios.

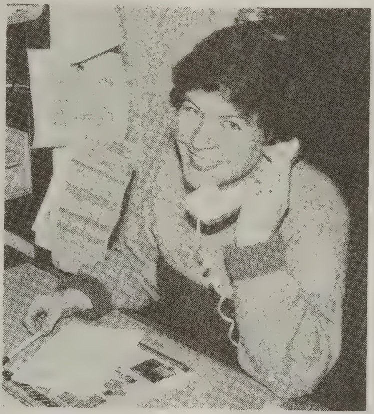
A.R.C. STAFF PROFILE

Lisa Friedrichs — Here's to Her New Career!

BY DOROTHY SCHECTER

Adjusting to changes in personnel is not easy for A.R.C., as we've had so little turnover in the past decade. This, after all, is a fun place to work!

But, we're all facing the inevitable and gearing up to be surrogate aunts and uncles, because Lisa Friedrichs, our office manager for six years, is about to embark on a new career — full-time motherhood. We share in her joy, but will miss her good humor, strong spirit, and awesome ability to handle multiple tasks at once. Lisa is a hard act to follow.



Looking back to her arrival at A.R.C. in 1991, we had no idea that a "Jill-of-all-trades" had joined our ranks. Since we were still operating out of Publisher John Terrey's house, our "office manager" didn't even have an office. But, it wasn't long before Lisa's first major job was to organize our move to separate, more professional quarters — and to acquire an office!

That was 1992, an eventful year for Lisa, both in the office and on the home front. In fact, her managerial talents were challenged to the hilt in one week of that year — a week in which she eloped with longtime beau Eric to Washington State where her sister lives. They started that memorable trip immediately after signing a purchase agreement on an old house here in nearby Acton, their hometown.

Thus began the saga of Lisa and Eric's house. With very little outside contracting, they tore down everything but the foundation, two walls, and the chimney, and rebuilt the house from scratch. We ordinary mortals could not believe the tasks Lisa set herself to — from foundation to roof and everything in between, she was there. And even now, with a due date in mid-November, she is helping Eric to finish things up in time for the new member of the household.

Lisa has also joined Eric in other tasks and activities not commonly on a woman's agenda. Take car restoration, for example. A 1968 Camaro is quietly awaiting the return of their attention. Lisa has also been known to engage in dirt biking and "war games," which, for you uninitiated, means shooting paint balls with CO_2-powered rifles, under the direction of a "War Lord" and a "War Lady." And she always has great tales to relate about the sights at the annual major motorcycle event in Laconia, N.H. As a result, we don't consider it unusual when Lisa arrives at work on her motorcycle.

Her more traditional activities include skiing, scuba diving, and bicycling — she has ridden many miles to raise funds for cancer research. Short trips to Florida to visit her retired parents are also more within the realm of average folks.

A graduate in business administration of Colby-Sawyer College in New Hampshire, Lisa worked in bank marketing before coming to A.R.C. She sometimes describes her job as "everything here nobody else wants to do." But the truth is that many of us can't imagine doing all that she does.

Lisa assists our publisher in multiple tasks and is involved with everything from payroll, order processing, book sales and purchasing, wholesale orders, and subscription updates and renewals to backup typing and proofreading. If you are looking forward to the Greater Boston Antique Radio Collectors (GBARC) Radio XXIX, you will remember that Lisa has been the manager of that event for the past several years. And thanks, Lisa, for arranging all those staff Christmas and birthday parties — we'll miss those home-baked apple pies and low-fat cakes.

Then there are the moments we wish we had photographed: Lisa sitting on the floor in her maternity clothes, armed with screwdriver and instructions, putting together a new desk. (Isn't that what all office managers do?) Or Lisa with a hammer in a driving rainstorm, trying to put the broken windshield wiper back on the A.R.C. van, which was loaded with books for the New England Antique Radio Club meet in New Hampshire.

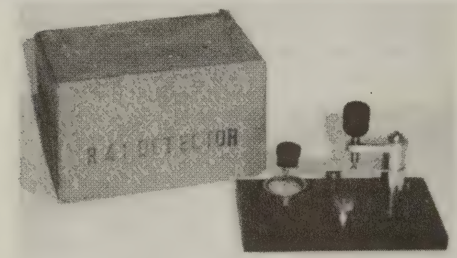
And we remember when she took a few days off to fly with Eric to Wisconsin to pick up his father's Harley Davidson motorcycle and ride it back to Massachusetts. We could have lost her that time because the saddlebags resting against the tail pipe caught fire, and it was a while before they knew why people were gesturing wildly at them.

"Lisa's Story" could become a novel. Suffice it to say that the common cry around here is, "Lisa can't leave!" We are still in denial. But we know that all of you who have talked with her over the years will join us in wishing her well. One thing is sure — her life with Eric and baby will never be dull!

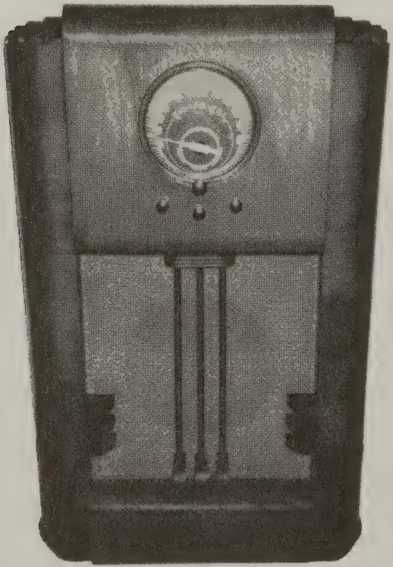
(Dorothy Schecter, c/o A.R.C., Box 2, Carlisle, MA 01741)

PHOTO REVIEW

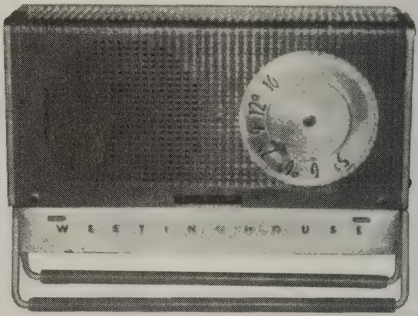
This column presents in pictorial form many of the more unusual radios, speakers, tubes, advertising, and other old radio-related items from our readers' collections. The photos are meant to help increase awareness of what's available in the radio collecting hobby. Send in any size photos from your collection. Photos must be sharp in detail, contain a single item, and preferably have a light-colored background. A short, descriptive paragraph **MUST** be included with each photo. Please note that receipt of photos is not acknowledged, publishing is not guaranteed, and photos are not returned.



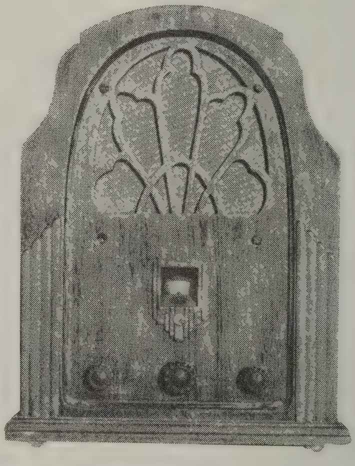
SIGNAL ELECTRIC MFG. CO. R41 DETECTOR — It is rare to find this detector with its original carton. *(Erwin Macho – Vienna, Austria)*



WILCOX-GAY MODEL 6T11 – This 11-tube console with tuning eye has a unique white-on-black glass dial marked for broadcast, police and foreign bands. It features dual Type 80 rectifier tubes with Type 6F6 push-pull output. *(Ronald L. Gamer – Excelsior, MN)*

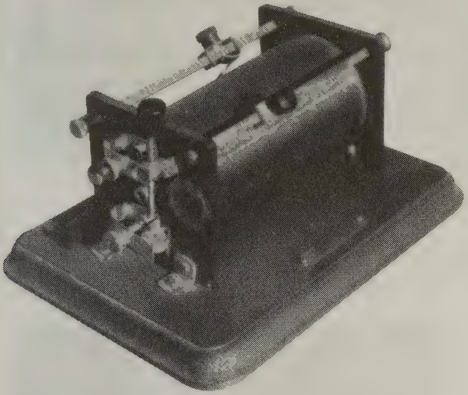


WESTINGHOUSE MODEL H-493-P4 – This Art Deco portable uses subminiature tubes—Types 1V6, 1AH4, 1AJ5 and 1AG4. Measurements are 6-inches long, $3^{3}/_{4}$-inches high not including the handle, and $1^{3}/_{4}$-inches deep. *(Francis Buren – Postville, IA)*

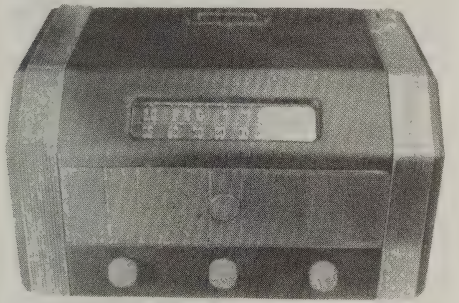


HERMES MODEL 472 – This Japanese set with a solid wooden cabinet features a fine-tuning knob. *(R. Suslovich – McLean, VA)*

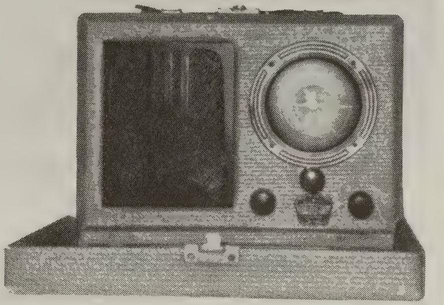
PHOTO REVIEW



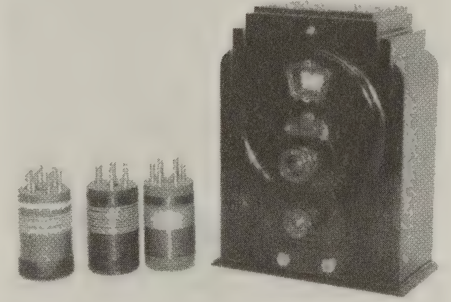
STAR CRYSTAL SET – This catwhisker and galena crystal receiver was manufactured by the Star Mfg. Company of Turtle Creek, Penn. It has a 1922 red and gold seal of approval from *Radio News.* Tuning is done by the double slide contacts on the red-enameled wire coil. *(Dave Crocker – Mashpee, MA)*



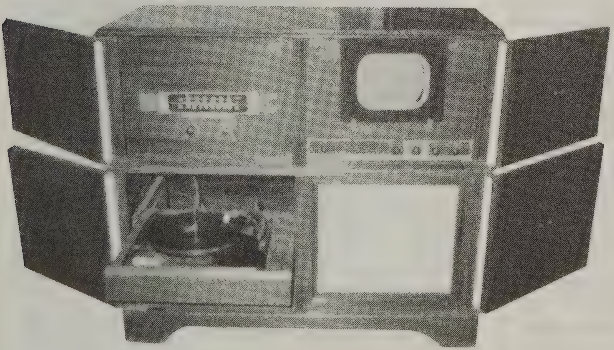
RCA COIN-OP MOTEL RADIO — This coin-operated set from the 1940s has the same chassis as the RCA Model 56X5 "12,000 Miler." *(Matt Limpert – Fort Wayne, IN)*



ABERCROMBE AND FITCH MODEL UNKNOWN – "Abercrombe & Fitch Co." is the name embossed on the brass nameplate of this radio. This is an AC-DC set with a resistance line cord. There is a white image of North and South America in the center of a black dial. *(Francis Buren – Postville, IA)*



ICA UNIVERSAL "MASCOT" — This very small, 1-tube radio uses four plug-in coils to cover BC and SW bands. The batteries are externally connected by a cable. The headphones plug into the two jacks at the base of the Bakelite case. *(Wally Worth – Wollaston, MA)*



MAJESTIC MODEL 18C91 — This is a 1948-1949 console combo with a 7" TV screen. It has two separate chassis, one for the AM/FM radio/phono and one for the TV. This set uses a Type 5U4 rectifier and power transformer for the low voltage power supply. The high voltage is RF type with a small 6C4 overworked as a self excited oscillator output for high voltage. The automatic turntable is 78 rpm only. Everything is in working condition. *(Hicksville Radio & TV – Hicksville, NY)*

MEET AND AUCTION REPORT

Antique Wireless Association Conference and Auction Report

Rochester, N. Y. — September 3-6, 1997

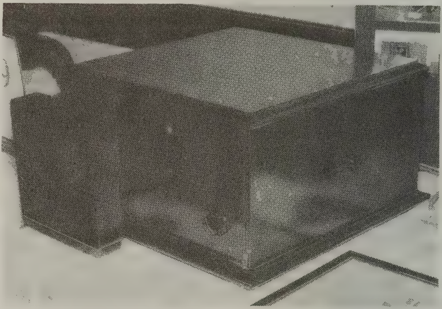
COMPILED FROM REPORTS BY RAY CHASE, LUDWELL SIBLEY, JOHN V. TERREY, PETER YANCZER, AND THE AWA

The Antique Wireless Association (AWA) held its 36th annual historical radio conference at the Thruway Marriott Hotel, in Rochester, New York, on September 3-6, 1997. The event was an all-round record breaker. Registered attendees numbered 851, but total attendance was certainly over 1,000. Considered by many to be the premier radio event in the country, this conference consists of a giant outdoor flea market, an indoor book fair, 4 auctions, an old equipment contest, displays, presentations, trips to the AWA Museum, and lots of good ol' wide-ranging radio talk.

Bright, brisk fall weather prevailed and made the flea market even more enjoyable than ever. A record number of 322 spaces was sold, and vendors spilled over the designated parking area into the woods beyond. At the height of the action on Wednesday and Thursday, your editor counted about 225 vendors at work selling their wares. As usual, the numbers dropped off on Friday and Saturday.

Television was the special theme this year. As in previous years, many presentations, demonstrations, and contest entries, as well as the featured banquet speaker, related in some way to the conference theme. The five theme-related presentations included "CBS Color TV, 1946 to 1954," "The Story of Electronic Television," "RCA Camera Tubes," "The History of Television," and "The Mirror Screw and Its History."

Organized by Peter Yanczer, a demonstration of ten operating early TV systems was a highlight of the meet. A unique, original piece — a mirror screw, 120-line television system never before seen operating in this country — was one of the interesting pieces of equipment shown.



This rare Baird TV unit with magnifier was in the old equipment contest.

Among the other demonstration subjects were the following: a prewar RCA TRK-120, a home-brew 25-line scanning disk receiver with a camera, a 60-line home-brew mechanical camera and receiver, a ColorTel color converter on an early B/W set, a flying spot scanner using a large arc lamp as the light source, a World War II iconoscope camera, a 60-line Hollis Baird scanning disk receiver with a home-brew camera, and 12 miniature personal television sets.

All of the television demonstrations were going on at once, much like a trade show, making interaction with the audience easy. One attendee commented, "All of the great demonstrations at one time and place will probably never be repeated or excelled."

The television theme was carried on at the Friday evening banquet by Dr. Malcolm Baird, son of John Logie Baird, the Scottish television pioneer. His interesting slide presentation with annotations showed many photos, some heretofore unpublished.

Other presentations also engaged the interests of conference attendees. For example, at the collecting books and magazines seminar, your editor talked on collecting *Radio Boys* books. In addition, Frank Bequeart provided information on how to repair books, and Dexter Deeley talked about the AWA library.

On Saturday, Dexter also organized perhaps the most extensive display of Tuska radios ever assembled at a radio meet. The sets had been gathered from several collections, including your

A warning: *Auction prices are not current values. Our selection of auction items is not necessarily complete. A listing such as this cannot adequately include the condition of cabinets, chassis, transformers, tubes, the operating status of the set, and the inclusion of incorrect, restored or replica components, etc. Auction prices are the result of the excitement of the auction process, the skill of the auctioneer and the specific interests of the participants. Nevertheless, auction prices serve as useful references and as another element in the value determining process. The possibility of error always exists, and if we are notified, corrections will be reported.*

Judy and John DeLoria display their radios for sale in the flea market.

editor's. The display had nearly all the models and variations sold by Tuska, even back to those the company designed for the A.C. Gilbert Co.

As always, the auctions generated much excitement. In general, the communications auction, held on Thursday, has a less formal air than that of the big Friday auction in that Thursday buyers and sellers finalize their own deals. After the winning bidder is determined at auction, the seller and buyer get together and exchange money and items. Highlights of this auction included a tied top price of $325 for a Collins 75A-3 receiver and for a National HRO-60, complete with 5 coil sets.

At 9:00 A.M. Friday, auctioneer Walt Buffinton kicked off the the big triple auction, which included a record 567 items. The number of collectors with bidders' cards was 275. Of note among the highlights was what Ludwell Sibley called a "galactic price"' for a deForest spherical Audion — $1,750, topping last year's price of $1,100 for a similar item. Runnerup was a 1920s Marconi transmitting tube, selling at $800.

Interestingly enough, the highlights of the paper/collectibles auction were not paper items at all. A watch fob, including a 1¼" cloisonne medal on a strap, from the 1921 ARRL Convention in Chicago brought $750, while an incomplete early Edison movie projector drive mechanism drew $800.

Top-selling paper items were a 6-volume set of RCA "Redbook" service manuals for $160, *The Electrical Boy* by Trowbridge for $120, and *The Speaking Telephone and Other Novelties* by Prescott for $110.

Among the high-priced equipment auction items were an RCA condenser microphone selling at $1,400; two Sparton blue mirror sets at $1,500 and $1,800; a Federal 61 at $1,500; a Paragon RA-10 and DA-2 at $1,750; a Kennedy 220 at $1,050; and an RCA IP-501A at $1,400.

The other significant items included an RCA enameled metal advertising sign selling at $875; two SCR-59 World War I aircraft receivers at $825 and $1,000; and an English Ekco at $1,050.

A.R.C. staff member Bobby Lyman at the A.R.C. table in the flea market.

On display in the contest room was this Baird television receiver.

There was an unusual volume of tubes this year, especially foreign types. Also of interest were a dozen or so telegraph/wireless items deaccessioned by the Chicago Museum of Science & Industry.

The total for all four auctions was $62,371.

An exciting adjunct to this conference was John Dilks' near real-time posting of daily events and color photos on the New Jersey Antique Radio Club's web page at http://www.eht.com/oldradio. Those who couldn't attend were able to" tune in" on-line everyday of the meet. Additional stories and Ludwell Sibley's auction report were also posted after the meet. The antique radio world is certainly catching up with the times.

We certainly hope to see you at Rochester in 1998. The scheduled dates are September 2–5.

e=excellent, vg=very good, g=good, f=fair, p=poor, unk=unknown, N.I.B.=new in box,

Dorotheum Antique Radio Auction
Vienna, Austria – June 14, 1997

BY ERWIN MACHO

Auktionshaus Dorotheum held its fourth catalogued radio auction in Vienna, Austria, on June 14, 1997. Once again, this event attracted a large number of collectors from Austria and surrounding countries. Even the United States was represented by a collector who visited the auction hoping to find Telefunken novelties.

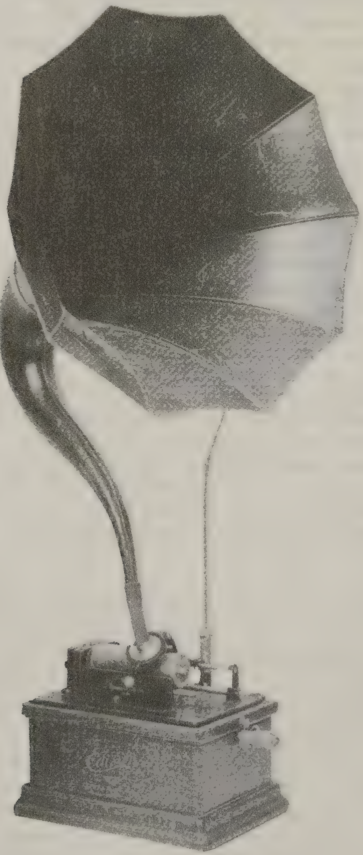
The offered material covered a wide spectrum, from early telegraphs to transistor sets, to modern designer radios. Also, some very interesting U.S. manufactured sets came under the hammer. These included a Western Coil & Electric Company Model WC5, which sold for $500, a Westinghouse Model RC for $1,000, and an Atwater Kent breadboard Model 10C for $1,250.

Other significant sales included the legendary Chiffriermaschine NEMA T-D, a 1947 code machine, which sold for $1,670. The same price was paid for a rare Blaupunkt VII, while a fine Edison Fireside phonograph went for $1,840. The greatest surprise was the sale of a Grundig Solo-Boy Model 201, a small transistor radio from the early 1960s, which sold for $290.

The fifth Auktionshaus Dorotheum radio auction will be held on December 20, 1997, in Vienna, Austria. An illustrated auction catalog may be ordered from Auktionshaus Dorotheum, Dorotheergasse 17, 1010 Vienna, Austria. The telephone number is +431/51560, and the fax is +431/51508. Catalog shipping will begin in November, and the price is $10.

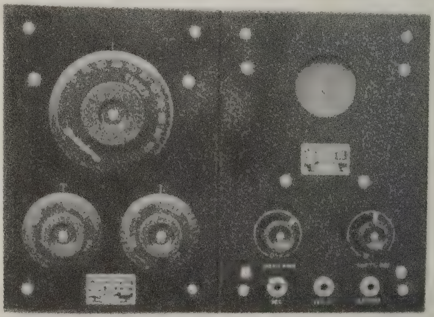
Combine your visit to the auction with a holiday trip to Vienna. It is one of the most remarkable cultural centers in Europe!

(Erwin Macho, Ambrosweg 17/A/8, A-1230 Vienna, Austria)



This fine Edison Fireside phonograph with original Cygnet horn went for $1,840.

This legendary Chiffriermaschine NEMA T-D code machine sold for $1,670.



This Westinghouse Model RC sold for $1,000.

YARD SALE!

(GRILLE CLOTH)

$20 per yard (51" x 36") for any quantity of yards of these patterns: #15, 16A, 17, 19A, 20, 21, 22, 23, 24, 25, 26, 27 until gone.

~~$15 per yard for #11~~ - SOLD OUT

4 New Patterns!

#30 and 31 are not what I expected so I'm selling them cheap to recover my costs – $12/yard! (36" x 44"). (If you can use a low cost generic look, this works.) #32 is a rust-colored Philco 90 type pattern for late 30's Zenith. #33 is for Buddy Boy, Kennedy tombstone and Temple speaker, and others.

Send 55¢ LSASE (4"x10")
for full set of samples.

Vacuum Tube Repair Wafers

These tube repair wafers are solid-state devices for quick and easy repair of early vacuum tubes. The wafer is installed by simply sliding it over the tube pins and reinserting the tube into its socket. If the filament is intact, but there is little or no emission, the filament may be lit for best visual effect. However, the tube can be open filament.

No change in radio operating voltages is required. Any number of tubes may be repaired in a radio. If wafers are installed on all tubes, the B+ voltage may usually be reduced without sacrificing volume or sensitivity. Performance will vary between radio models.

$10.00/each ($7.50/ea. 3 or more)

New Atwater Kent Breadboard Switch

Exact replacement for Models:
9 • 9C • 10 • 10A • 10B • 10C • 12
and all additional models with board mounted switch.

Newly manufactured under high pressure heat from the same type brown thermoset resin used in the original. Beryllium copper spring contacts are used for long, trouble-free life. Custom built knurl is used to exactly reproduce the original.

$50.00/each

ZENITH RADIO
THE EARLY YEARS
1919-1935

Harold N. Cones, Ph.D.
and
John H. Bryant, FAIA
with Martin Blankinship & William Wade

The authors of "The Zenith Trans-Oceanic: The Royalty of Radios" are pleased to present their new book, "Zenith Radio, The Early Years: 1919-1935." This first of a planned three-book series tells for the first time the *fully documented* story of Zenith radio and company development, and presents a wealth of never before published photographs, documents and information. Highlighting the book are 110 black and white photographs, 68 other illustrations and 120 color portrait photographs of many of the rarest and most beautiful Zenith radios of the era. Complimenting the Zenith story is an Illustrated Catalog with images of nearly every Chicago Radio Laboratory and Zenith radio model produced between 1919 an 1935. The Catalog is followed by a Database with valuable--and some unique--information covering every radio produced by the company during this period.

This Schiffer Publishing, Ltd. 224 page, highly illustrated, landscape formatted, book is available for $29.95 + $2 S&H ($3 Canada) from:

The Radio Professors
P.O. Box 592
Stillwater, OK 74076

Your purchase direct from the authors supports further research on Zenith plus provides you an autographed and numbered copy of this important new book. You will also receive a catalog of Zenith authorized memorabilia available for purchase and your name will be added to our mailing list for early notification when new books in this series are available.

RIDER'S PERPETUAL TROUBLESHOOTER'S MANUAL ON CD-ROM

DUE TO THE MANY QUESTIONS AS TO WHY OUR RIDERS CD-SERIES COST MORE THAN "BRAND X RIDERS" ?? . . . CHECK THESE FEATURES TO SEE WHY QUALITY IS ALWAYS THE BEST CHOICE!

FEATURES (Ask Brand X if theirs does this?)	*OURS*	*THEIRS*
Can I find a radio schematic using the power of a powerful database search engine?	Yes	No
Can I find a radio schematic using multiple data fields for searching?	Yes	No
Can I find a radio schematic by model number or chassis number even if I can't figure out who the manufacturer of the radio was?	Yes	No
Can I rotate the image on the screen so I don't have to break my neck viewing it?	Yes	No
Can I buy a single volume set rather than the whole series?	Yes	No
Can I read the smallest print on the schematics such as component values?	Yes	No
When I print, can I read the smallest component values at least comparable to the original Riders printed pages?	Yes	No
Is each CD a stand-alone program with database, installation and help?	Yes	No
Can I find any radio schematic in the matter of seconds with your CD's?	Yes	No
Do I have to use the error-filled Rider index to find where a schematic is located on the CD-ROM and which volume/page it may be located?	No	Yes
Does your CD-ROM set have a new and accurate index of what is on each page?	Yes	No
Does your CD-ROM set have an on-line program help file?	Yes	No
Does your CD-ROM program have grayscale simulation for picture enhancement?	Yes	No
Does your Riders Indexing have 50 different radio manufacturers that do not appear in the original Riders Indexes?	Yes	No
Is your Riders program CD-Jukebox Ready Without Swapping CD's?	Yes	No
Is your Riders program available for use with other Antique Radio CD-ROM's?	Yes	No

If most of the answers to these questions are "NO", you are buying the wrong product!

BUY OUR RIDER CD SET - ABSOLUTE MONEY-BACK GUARANTEE - SEE WHY QUALITY ALWAYS WINS AND WHY IT TOOK OVER TWO YEARS TO PRODUCE THIS SERIES !!!

STILL ONLY $ 85.00 per 4-Volume Set - ONLY $ 450 all 23 Volumes (6 CD's)
Quality is always the Best Choice

OTHER CD-ROM RADIO PUBLICATIONS

The Radiophile Series - Articles, Books, Reference Data, Resource Books, Technical Info, Troubleshooting Courses, Theory, Schematics and more are available on this series. ***Volume 1*** - 29 books with theory, reference, history, and troubleshooting information; ***Volume 2*** - Gernsback *Radio Serviceman's Books* from 1931-1936, and Zenith service manuals Vols. 1 & 2 from the beginning of Zenith through 1942; ***Volume 3*** - Tube substitution - foreign and USA, *The Book of Radio*, The fabulous Yaxley-Mallory *Radio Encylopedia*, and the equally famous *RCA Radiotron Design Handbook*; also the ***Antique Radio Repair Series*** - **Volume 1**, the first CD produced with just about everything that one would need to repair antique radios or to learn how to, and shipping soon . . . **Volume 2 - *"Rider Mania"*** - a real classic collection of John F. VT DATA

A Complete Tube Manual on your Computer.

Electrical specs for over ***1200*** tubes.

Includes Octals, Loctals, Miniatures, Subminiatures, Metal Types, Compactrons, Acorns, Nuvistors, Historic "2-digit" and Hi-Fi Audio Types.

One or more service examples available for each tube.

Automatic searches: Enter the specs you need (Filament Voltage, Function, Base, etc.) and VTDATA searches its database for all tubes that meet your needs.

Find substitutes: VTDATA will search its entire database for all potential substitutes for the tube you specify.

Maintain your personal tube inventory: Add and delete tubes from your collection. Browse your inventory on screen.

Complete on-disk user's manual. Easy to use menus.

To Order, send $29US (plus $3 S&H) to: "EPS/Solutions", P.O. Box 862, Broomall, PA. 19008-0862. PA residents please add 6% sales tax. Please allow 2 weeks for delivery. IBM-PC and DOS 4.01 or higher required.

127 Pages – Over 200 Illustrations of Radios in Full Color

55 different models from 25 manufacturers are extensively covered. Included for each is a description, the year of manufacture, dimensions, colors found and photos illustrating the various colors and variations. A 15-page introduction describes the growth of Catalin radio collecting, the Catalin material itself, the "Catalin" style, rarity and value, and colors and restoration. The introduction contains an additional eighteen photos, twelve in full color.

Softcover*– $19.95

*Remainder Copies - Complete, slight mark on bottom edge indicating that they are remainders.

U.S. Orders - Enclose $3.00 per order for packing & book-rate shipping if total order is under $35.00. If using VISA or MasterCard, include name on card, card number and expiration date. Send payment with order. Mass. residents add 5% sales tax. Money back return policy. Softcover unless stated otherwise. Most orders shipped the same day received, but allow 2-4 weeks to receive order. Foreign orders - write for shipping costs, or use credit card and specify air or surface (allow 2-3 months for surface shipping).

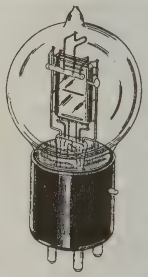
Tube Lore



A REFERENCE FOR USERS AND COLLECTORS

By Ludwell Sibley

For serious tube enthusiasts, a new look into tubes from 1920 to the present: history of design trends, technical data, equivalencies, stocking-up hints, "where-used" information, even recent auction prices. Here's what it contains:

- **Trends in Tube Design**: major styles that shaped the industry - acorns, metals, loktals, miniatures and subminis, lighthouse, nuvistors, compactrons. Odd design variants and special "reliable" types.
- **Receiving and Audio Types**: "prehistoric" types from 25 tiny manufacturers as well as the big guys. Information on a lot of collectible tubes in one place. Basic data on lots of later types not found in ordinary tube handbooks, and early CRTs.
- **Special-Purpose and Transmitting Tubes**: covers the familiar ones and lots of unknown types. "Regular" tubes, plus magnetrons, klystrons, thyratrons, ignitrons, camera tubes, etc. Capsulized characteristics on 2300 "specials" from 5512 to 9019. Helps identify that just-found "whatzit."
- **Military Types**: a *researched* list of Signal Corps "VT" tubes; historic Navy types; coverage of Canadian "REL" tubes.
- **Unique Tubes** from major makers: De Forest, Eimac, GE, Raytheon, RCA, Sylvania, Westinghouse. A 13-page chapter on Western Electric!
- **User's Guide**: ideas on testing, adapting, repairing, reactivating, reading date codes, detecting the real maker of private-brand tubes, turning random bagfuls into usable repair stock.
- **TV Sweep Types**: what tubes are used in eight audio amps and 78 amateur transmitters/linears; hints on substituting as the originals get scarcer and more expensive.
- **Auction Prices**: for collectible and audio tubes, from six major tube-rich sales.

Softbound, 186 pages, 8-½" x 11", $19.95 postpaid in North America or $24.95 air-PPD elsewhere. Orderable from:
Ludwell Sibley, 44C E. Main St., Flemington, NJ 08822.
Club discounts available; call (908) 782-4894.

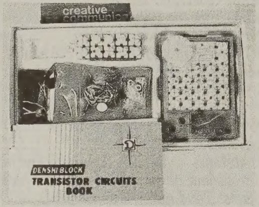
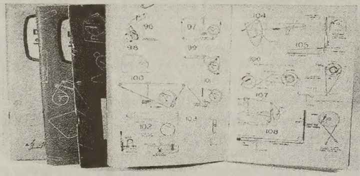
INDEPENDENT
TV-RADIO SERVICE
ALL MAKES—ALL MODELS
FAST SERVICE FAIR CHARGES!

FOR SALE: Raytheon Tube Sign. This is the first Raytheon sign we have come across--14" wide heavy paper board sign in red, yellow, blue and black, and shows a repairman "riding" on top of a Raytheon tube! **$66**

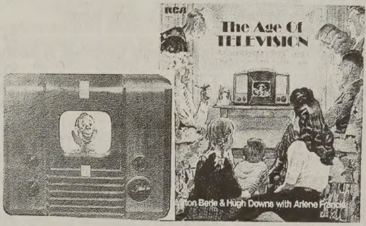


creative communica
DENSHI BLOCK
TRANSISTOR CIRCUITS BOOK

FOR SALE: Denshi Block Kit DR-2A. The strangest transistor radio kit I've ever seen--each white plastic cube contains an electronic component in a Leggo-type kit! Made in Nagoya Japan, and patented in 1969, this is complete and boxed with both instruction booklets. Makes a radio, amp, code oscillator, and lots more. A great item...**$94**

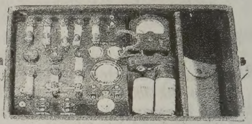


FOR SALE: Dial Cord Restringing Guides. If you've ever tried to put a dial cord back on, you know you need this set! **Sam's DC1, 2, 3, and 4**, these cover most sets from 1938 through the mid-1950s. Probably over 1,000 illustrations...**$42**

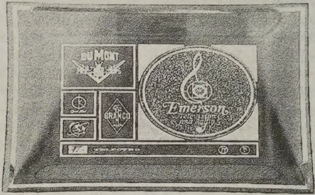


RCA
The Age Of Television
Milton Berle & Hugh Downs with Arlene Francis

FOR SALE: RCA Record: Age of Television. The cover shows a family watching a 630-TS, inside Charlie McCarthy looks at a 721-TS, and a booklet inside shows Howdy Doody on a 621-TS. This 1971 record includes Milton Berle and Hugh Downs, plus sound tracks from 1946 to 1971 are featured. In like new condition, **yours for only..$18**



FOR SALE: The Handy Hearing Aid Tester! This one is **unique**...a two level case which opens to reveal 5 Raytheon submini tubes, volume control, etc. You could test the specs of your hearing aid. Looks clean and complete..circa 1930s or 1940s..**$79**

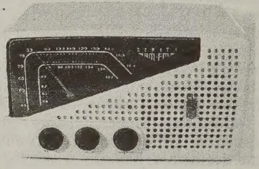


DuMONT
GRANCO
Emerson

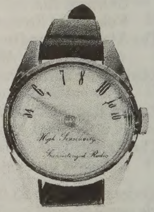
FOR SALE: Electronics parts-candy dish. This 9" wide glass ashtray has gold trim, and DuMont, Emerson, Quite Kool and other brand name logos, in gold plate. A nice addition to your display...**$33**

ZENITH
METAL CLAD
ZENITH
METAL CLAD
ZENITH
METAL CLAD

FOR SALE: Vintage ZENITH Batteries. These bright yellow "D" batteries have black, red and white lettering: "Zenith Transistor Radio Battery" and "Packaged Power Famous for long life". Probably 1950s. Minor tarnish but no rust..**all 3 for $17**



FOR SALE: Zenith Model 7H822 AM/FM radio in white bakelite or plascon. In excellent condition, (has chassis number 7E02Z). **Price...$79**



High Sensitivity
Transitorized Radio

FOR SALE: Wrist-Watch Transistor radio. This looks like a wrist watch for the Jolly Green Giant--complete with band, catch, etc., but it's 5" wide! Marked "High Sensitivity Transitorized Radio" and 516 JAPAN, it's old enough to still have the CD marks. Best condition we've seen in this type novelty--and it works...**$68**

CLASSIFIED ADVERTISING POLICY

ONE FREE 20-WORD AD for subscribers in each issue; additional words are 27¢ each. See details below. Classified ads sent by mail, fax or by any other method must be received (not just postmarked!) by **Noon Eastern Time** on the classified ad deadline date to guarantee inclusion in the current issue. Late ads are held for the following issue. Please enclose correct payment with all ads. Stamps or cash are OK for small amounts. (Canadian and other foreign advertisers, please see "Payment" on page 2 for methods.) "Free words" cannot be accumulated from month to month; free words must be requested when ad is submitted.

Faxed & e-mailed ads: Please see additional information on the inside front cover.

When including ads with other A.R.C. correspondence, write the ads on a separate piece of paper. Include SUB# with ad. Ads may be sent in advance; but, write each ad on a separate piece of paper and indicate the month (or successive two months) you want the ad to run.

To minimize our typing errors: Please write legibly. Use both capital and small letters. Do not use a dash between words. Carefully write the following numbers and letters (especially in model numbers) since some can look alike; for example 1, I and l (the number one, the capital i and the small L.) Also: 0, O , o, Q and D; r and n; 6, b and G; V, U, u, v and Y; A and R; 5, S and s; 2, Z and z. We try to correct spelling errors, so when using an uncommon word or manufacturer which we might mistake as a more common word or manufacturer, note it so that we do not "correct" it. Editor's annotations are in [brackets].

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

The publisher reserves the right to edit ads without notification to the advertiser and to reject ads for any reason. Names other than the advertiser will be edited out of ads. Ads with non-radio-related items will be returned or edited unless the non-radio-related items are for trade of radio-related items, or they are incidental to and appear at the end of an otherwise acceptable ad. The publisher is not responsible for errors due to illegibly written ads or for any other reason.

Clubs: Since club activities receive free coverage on the *Coming Radio Events* pages, the free 20 words may not be used for club activity ads. See inside front cover for additional information.

CLASSIFIED AD DETAILS

Deadline: NOON ET– 10th of the month!

Classified ads must have a standard heading such as WANTED, FOR SALE, FOR TRADE, FOR SALE/TRADE, SERVICES, MESSAGE, HELP, AUCTION, MEET, etc. This heading is the only bold or all-capitalized words allowed in the ad. Capitalize only manufacturer names, model names, etc. This standard ad format makes scanning the ads easier.

Before writing your ad, please look over the ads in a recent issue of A.R.C., and try to write your ad in the same style. Full name (or company name) and address is required in all classified ads; we will add it if you forget.

To encourage varied content of the ads, the same classified ad may be run only once per issue and for only two consecutive months. (To run an ad longer, use a boxed classified or display ad.)

Classified Ad Rates per Month

Subscribers:
- First 20 words: **FREE***
- 27¢ per word for extra words over 20 **plus**
- 10¢ per word for a shaded ad (count all words including free words).
- * Subscribers may take 20 free words on only **one** ad each month.

Non-Subscribers:
- 45¢ per word **plus**
- 10¢ per word for shaded ad.

Please do not forget to send in the extra 27¢ per word when your classified ad runs over the free 20 words; your payment will be appreciated, and it will help to keep A.R.C. healthy.

BOXED CLASSIFIED AD DETAILS

Deadline: 1st of the month!

Boxed classified ads can run unchanged for three months or more. No words are free. Ads may be shaded and may include bold and all-capitalized words freely. The ad need not begin with "For Sale," etc. Minimum run is 3 months, prepaid. Discount: 10% for 6 months; 20% for 12 months.

Boxed Classified Ad Rates per Month

Nonshaded ads:
- 38¢ per word for all words,* none free, **plus**
- 10¢ per word for each bold word **plus**
- 10¢ per word for each all-caps word.

Shaded Ads (All words are bold at no charge):
- 48¢ per word for all words* **plus**
- 10¢ per word for each all-caps word.

Non-Subscribers:
- Add 20¢ per word to above costs.

*Three words can be bold-all-caps at no extra charge.

PHOTO & DRAWING DETAILS

Deadline: 1st of the month for all ads with drawings or photos!

Drawings and photos are encouraged as the response to your ad is much larger and the reader knows better what you want or are selling. Send in your drawing or photograph, and A.R.C. will reduce it or enlarge it as needed.

Photo and Drawing Rates per Month

$22.00 per month for each photo or drawing
(If ad is canceled, this amount cannot always be refunded.)

CHANGES & CANCELLATIONS

Please check your ads carefully before sending them in. Once ads are received, it is not always possible to refund the amount sent, pull the ad or make changes.

IMPORTANT — COUNTING WORDS — IMPORTANT

The **standard headings**: WANTED, FOR SALE, etc., count as **one word** each time used in an ad. **Name, address** and (one) **telephone number**, count as **6 words**, regardless of length. Ham call letters and business name can be included in the 6 words and do not count extra. Full name (or company name) and address is required in all classified ads. Each additional word, abbreviation, model number or number group, extra telephone numbers, fax, e-mail, etc. count as one word each. Hyphenated words count as two words.
